RECOVER • REIMAGINE • REBUILD

RECOVER

Together, we will overcome this health and economic crisis brought on by COVID-19. None of us work alone. We are in this together, and it is the strength of our community partners that drives real change. Our strength comes from our donors, with your help; we support the most vulnerable people in our community. United Way works with our partners to address the needs of our community. This has never been more important than now.

REIMAGINE

We need to reimagine a new normal that results in a more resilient community to effectively drive real change that equips us to better weather inevitable future crises. Every person must do their part to make our community the place that we need it to be; providing opportunities for all.

REBUILD

We don't want to get back to "normal." "Normal" wasn't working for thousands of people in our community. We're rebuilding for a better more resilient community. We need to feed those who are hungry, protect and prepare our children for success in school, work and life, and connect those in financial distress with resources to help pay bills and keep them in their homes.

THANK YOU!!!!
United Way of Wilkes County
